

Monday Junior Academy - 2 Braided Pigtails

Step 1 – Wet the hair and part hair straight down the middle.

Using a hair tie or clip you will take set apart one side so it stays out of your way so you can braid one side at a time.

Step 2 -Using the section that you didn't bind, brush the hair toward the back so you can braid it behind your dancers ear. Section it off into three equal strands.

Step 3: Braid it tightly so the hair won't come loose. Use a hair elastic to fasten it at the end. The elastic should be the closest color to your dancers hair as possible. Repeat on the other side with the hair you sectioned off. Make sure the braids are behind your dancers ears. This will help so they aren't in their face while they are dancing.

Step 4: Hair spray or gel any fly aways, bangs, etc. so the hair stays in place while dancing.
