

# 4 Easy Steps to Doing Hair

*Princess Academy & Royalty Company*

Step 1: Make sure you start with wet hair that is nicely combed through.

Step 2: Part hair directly down the center of the head starting from the front and going all the way down the back of the neck.

Step 3: Slick hair up into two high pigtails. Using lots of hairspray so there are no fly aways.  
\*Make sure they are high on the head, directly above the ears\*

Step 4: Make sure the pigtails are wet, split into four sections wrapping them around a curler or marker starting with the ends. Remove the curler and add bobby pins like crazy to make sure they stay in. You will do 4 of these curls – to the right – to the left – up – down. This will be the shape of a flower.

\*Repeat same step on both pigtails\*
