

# 4 Easy Steps to Doing Hair

*Tiny, Mini, Junior & Senior Company --- Mini & Junior Academy*

**Step 1:** Make sure you start with your hair stick straight!! No waves, curls, or poofs!

**Step 2:** To measure your bump use both pointer fingers to find the middle of each eyebrow. Using a comb make two parts, one on each side, to about mid way back

Step 3: Pull back hair only between the two parts into a slightly raised bump. To secure hair, insert bobby pins horizontally, NOT VERTICALLY!

Step 4: Slick back all remaining hair into a tight pony tail at the hair line so it is as low as it can get. Make sure pony tail is **STICK STRAIGHT**, please no waves, curls, or accessories!
